Langham Announces 2008 Quality Service Award Winners

INDIANAPOLIS (Nov. 11, 2009)--Langham Logistics, Inc. has announced its Quality Service Award winners for 2008. Langham's carrier partners are qualified through a multi-step process measured on on-time performance, supplier discrepancies, supplier corrective action requests, safety rating and claims to provide a level of service that the supply chain industry demands. This year's award winners are:

YRC/USF Holland (Holland, Mich.)--Holland has long been recognized for delivering the most next-day service lanes in its territory and annually records one of the lowest claim ratios in the industry. Originally committed to serving the central United States, Holland has expanded farther into the Southeast and Midwest where it continues to provide on-time reliability.

Air Cargo Transit (Phoenix, Ariz.)--A provider of pickup and delivery air freight, hot shot service, trucking and warehouse services.

Atege (Frankfurt)--A global freight forwarder since 1872 that has strong corporate values. This company is driven by individuality, personal commitment and responsibility.

Langham's Quality Assurance program includes system elements with documented policies, procedures and work instructions to ensure Langham's continued award-winning performance with its domestic and international partners. Adherence to these company requirements are documented and reviewed with partners through a detailed audit program to ensure continued compliance.

###
